This opinion contains indications relating to the following items: Box No. I Basis of the opinion				
Box No. II Priority Rev. No. III. Non establishment of a finite with a seal to a seal to be a s				
Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability				
Box No. IV Lack of unity of invention				
Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability citations and explanations supporting such statement				
Box No. VI Certain documents cited				
Box No. VII Certain defects in the international application				
Box No. VIII Certain observations on the international application				
other than this one to be the IPEA and the chosen IPEA has no opinions of this International Searching Authority will not be a If this opinion is, as provided above, considered to be a writter IPEA a written reply together, where appropriate, with amendo of Form PCT/ISA/220 or before the expiration of 22 months firs for further options, see Form PCT/ISA/220.	pt that this does not apply where the applicant chooses an Authority of the International Bureau under Rule 66.1 bis(b) that written so considered. In opinion of the IPEA, the applicant is invited to submit to the ments, before the expiration of 3 months from the date of mailing			
3. For further details, see notes to Form PCT/ISA/220.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/KR2004/001652

Box No. I Basis of this opinion
 With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
a. type of material
a sequence listing
table(s) related to the sequence listing
b. format of material
in wirtten format
in computer readable form
c. time of filing/furnishing
contained in the international application as filed.
filed together with the international application in computer readable form.
furnished subsequently to this Authority for the purposes of search.
3. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additioanl copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:
G.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/KR2004/001652

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Novelty (N)	Claims	1-9	YES
	Claims	NONE	NO
Inventive step (IS)	Claims	1-9	YES
	Claims	NONE	NO
Industrial applicability (IA)	Claims	1-9	YES
	Claims	NONE	NO

2. Citations and explanations:

Claims 1-6 relate to a covalent bonded solid substrate of cucurbituril derivative of formula (1) with a modified solid substrate of formula (2) or formula (7). Claims 7-9 claim a protein chip, a DNA chip and a biomolecule analytical sensor including the solid substrate of claims 1-6.

1. Novelty

The technical feature of claims 1-9 such as a covalent bonded solid substrate of cucurbituril derivative of formula (1) with a modified solid substrate of formula (2) or formula (7); and bio-chips and a biomolecule analytical sensor including the solid substrate, is not disclosed in the prior art. Thus claims 1-9 are novel under PCT Article 33(2).

2. Inventive Step

The technical feature of claims 1-9 such as a covalent bonded solid substrate of cucurbituril derivative of formula (1) with a modified solid substrate of formula (2) or formula (7); and bio-chips and a biomolecule analytical sensor including the solid substrate, cannot be readily considered by a person skilled in the art with the teaching of the prior art. Thus claims 1-9 are inventive under PCT Article 33(3).

3. Industrial Applicability

Claims 1-9 are industrially applicable under PCT Article 33(4).
